A creative graphic designer with versatile skills in digital and print media—ranging from book layout, brochures, newsletters, large-format graphics, web design materials, and medical product labeling.

Skills

- Medical product labeling: IFUs, labels, cartons
- PLM: Agile, Arena
- Adobe Creative Cloud
- Print design
- Graphic design

Experience

FEBRUARY 2020 – DECEMBER 2021
Product Labeling Specialist / Insulet Corporation, Acton, MA

Maintained, developed, and implemented packaging and labeling changes across multiple product lines. Collaborated with several departments to ensure regulations and guidelines were met. Used PLM (Arena) to create new items and change orders for labeling.

JUNE 2017 – JULY 2021
Consultant / Black Diamond Networks, Inc., Andover, MA

Graphic Artist / Hydrofera, LLC., Manchester, CT

Revised artwork files (IFUs, shipper cartons and labels, and tray lids) for medical product labeling to meet regulatory standards. Updated branding on several product SKUs. (MARCH 2020 – JULY 2021)

Product Labeling Specialist / Hologic, Inc., Marlborough, MA

Updated information on medical device product labeling to meet regulatory guidelines. Prepared files for translation house. Worked with multiple departments on product launches from concept to finish product. Implemented labeling changes through a PLM (Agile). (JANUARY 2019 – FEBRUARY 2020)

Graphic Artist / Stealth BioTherapeutics, Inc., Needham, MA

Converted 4-color IFU into 4-color reader-friendly booklet form. (JUNE 2017 – OCTOBER 2018)

AUGUST 2017 – JANUARY 2019
Consultant / Adecco, Keene, NH

Graphic Artist / Smiths Medical, Keene, NH

Designed medical deliverables to strict corporate guidelines. Revised graphics and information on medical device labels and packaging.

SEPTEMBER 2012 – JULY 2016
Graphics Technician / GES, Lithia Springs, GA

Developed trade show concepts and layouts. Prepared print-ready artwork and layouts for large-format deliverables for national trade shows. Assisted with print production on flatbed printer.

Education

A.S. Computer Graphics / Keiser University, Melbourne, FL

Studies focused on developing skills in page layout, advertising, multimedia, video editing, web design, illustration, and other emerging visual communication technologies.
